

# MEET THE WOLVES

(Week 12)

With the start of a very busy fourth week of district play and week 12 of “Meet the Wolves,” it is time to meet **Bryce Parchman**. Bryce is a 17-year-old junior from Metairie, Louisiana who plays the guard position for the Wolves. He is the son of Angela and Greg and the brother of Connor Parchman. Bryce gives the Wolves another defensive spark with his overall toughness guarding opponents and his willingness to take charges. To get to know a little more about Bryce, he was asked the following questions:

### **What is it about basketball that made you want to play in high school?**

Bryce, like many of his teammates, found a love for the game of basketball very early, making playing in high-school a must for him.

### **What is your favorite or funniest SPS basketball memory so far?**

His favorite memory will be getting the opportunity to play basketball for a great school, and being able to attend St. Paul’s School.

### **What are you looking forward to the most for this season? Any goals?**

Bryce is mostly looking forward to playing with his brothers, and has his focus on winning a state championship.

### **How do you want your teammates to remember you?**

Bryce would like his teammates to remember him as someone they could always talk to and laugh with.

### **If you could create a signature shoe, what would it be called?**

The signature shoe that Bryce said he would create would be called the, “BP’s.” Bryce got his inspiration from the latest version of the high cut Steph Curry model. The difference though, would be that the ankle support would be much stronger. This shoe will greatly reduce the risk of injury while still allowing you to maintain your natural movements on the court. As of late, with all the minor ankle injuries the Wolves have been enduring, Bryce’s first customers may be his own teammates!

**Are you more of a round earth guy, or do you agree with Kyrie Irving that the Earth is flat?**

It looks like this debate is now becoming one-sided. Bryce also firmly agrees with the conventional idea that the Earth is round. The scientific conspiracy discoveries of the Earth being flat or any other shape seemed to die down after the first few weeks of the debate.

**Who is your favorite member of the Ball family and why? (Lavar, LaMelo, LiAngelo, Lonzo)**

Was not expecting more than one player to choose Lavar Ball as their favorite member of the Ball family, but Bryce is the second. Bryce is a fan of Lavar because he finds Lavar funny and amusing to watch as he often tends to make a fool of himself.

**Do you have any plans after high school?**

Bryce still has some time to think about what his future holds after high-school, but at this point, he knows he wants to attend college. Although he is not decided on where he wants to attend, Bryce does want to study to become a lawyer and is also not counting out the idea of playing basketball in college.

**Is there anything else you would like to share about yourself?**

Other than playing basketball, Bryce enjoys cooking and playing the guitar!
