

MEET THE WOLVES

(Week 1)

The Wolves are wrapping up their third week of practices, and are now ready for their first scrimmage at Episcopal School of Baton Rouge. With game-time getting closer, it is only right that you get to know your varsity Wolves for the 2017-2018 season. Each week will feature a different varsity player, and allow you to get to know a little more about him.

For the first week of “Meet the Wolves,” we introduce **Chandler Owenby**. Chandler is an 18-year-old returning senior who plays at the forward position. He is a hometown native from Covington, Louisiana. He is the son of Ken and Christy Owenby, and the older brother to Ben Owenby. Chandler is a high-flying dunker so it’s hard to miss him on the court. To get to know a little more about Chandler, he was asked the following questions:

What is it about basketball that made you want to play in high school? Chandler simply stated that he loves playing the game of basketball.

What is your favorite or funniest SPS basketball memory so far? His favorite memory so far was being a member of the St. Paul’s basketball team that won the CYO tournament in the 2015-2016 season. This marked the first championship in the CYO tournament in St. Paul’s basketball history.

What are you looking forward to the most for this season? Any goals? Chandler has his mind set on winning district, and then taking it a step further after by winning state this year.

How do you want your teammates to remember you? Chandler ultimately wants to be remembered as a great leader and teammate to his team as he enters his last season of high-school basketball.

If you could create a signature shoe, what would it be called? Chandler said his signature shoe would be named, “Blowenby 12’s.” Looks like he used some inspiration from Michael Jordan’s retro collection in combination with his own raw speed on the court.

Are you more of a round earth guy, or do you agree with Kyrie Irving that the Earth is flat? Chandler had to be directly quoted for this question as he responds, “I honestly believe that the earth is a square.” His response leads us to think that he may have a comedic side and a third scientific conspiracy to debate against the Earth being round or flat. While we will not discount his belief, further research will need to be done to fully understand his claim. Stay tuned.

Who is your favorite member of the Ball family and why? (Lavar, LaMelo, LiAngelo, Lonzo) Out of the all the members of the ever-popular Ball family, Chandler is most a fan of the NBA phenom rookie, Lonzo. This makes sense because we can see some similarity between Chandler and Lonzo as they both are high-flying dunkers.

Do you have any plans after high school? Being that it is his senior year, Chandler has some big decisions ahead of him. After high-school, he plans to attend college and continue his basketball journey playing at the collegiate level. As of right now he is still undecided as to where he plans to attend, but with a final successful season, hopefully that decision becomes easier clearer for him.
