

# MEET THE WOLVES

## (Week 2)

For week 2 of “Meet the Wolves,” we introduce **Luke Andrews**. Luke is a 17-year-old returning senior who plays as a guard for the Wolves. He was born in Covington, Louisiana, but has been raised in Mandeville, Louisiana his whole life. He is the son of Blake and Heather, and is the younger brother to Brooke Andrews. Luke’s role as a floor general is displayed through his leadership as he keeps the team organized on the court. To get to know a little more about Luke, he was asked the following questions:

### **What is it about basketball that made you want to play in high school?**

Luke said that he’s been dribbling a basketball since he was the age of 2, and that he’s always enjoyed playing the sport of basketball.

### **What is your favorite or funniest SPS basketball memory so far?**

Luke also said that his favorite SPS basketball memory was winning the CYO Tournament for the first time in St. Paul’s basketball history his sophomore year.

### **What are you looking forward to the most for this season? Any goals?**

Luke has his sights set on playing a full year his senior year due to being setback his junior year after having ankle surgery in the summer of 2016. His goal is to be the first SPS basketball team to win a state championship.

### **How do you want your teammates to remember you?**

Luke would like his teammates to remember him as a leader of the team who pushed his teammates to work hard every day whether it be practice or games.

### **If you could create a signature shoe, what would it be called?**

Luke said his signature shoe would be named, “Posterizer 12’s.” He said that the shoes would make him jump a foot higher! With another spin-off of the Retro Jordan collection, Luke may be trying to take the evolution of dunking points guards to a whole new level. On a side note, I may be Luke’s first customer.

**Are you more of a round earth guy, or do you agree with Kyrie Irving that the Earth is flat?**

Once again, another direct quote was necessary for this question as Luke responded, “Unlike Kyrie or Chandler, I think the Earth is more of a rhombus shape.” With this being the consecutive response that has stated another potential conspiracy, it appears that there are major scientific discoveries occurring on a weekly basis in St. Paul’s earth science classes. As such, we will not discount Luke’s fourth possible belief until further research has been done, but we would like to see our Wolves on the court before they go work for NASA.

**Who is your favorite member of the Ball family and why? (Lavar, LaMelo, LiAngelo, Lonzo)**

Out of the all the members of the ever-popular Ball family, Luke also is mostly a fan of the Laker rookie, Lonzo. Luke feels that Lonzo has the best shooting form out of a family who for the majority all have unusual shooting forms. Also, Luke stated that Lonzo is the GOAT (Greatest-Of-All-Time) on the video game NBA 2K. I personally can agree with the second statement.

**Do you have any plans after high school?**

Luke, also being a senior has some major decisions coming his way, and he plans to attend LSU after graduating from St. Paul’s. He plans on getting a degree in construction management while also furthering his basketball talents at the UREC at LSU.

**Is there anything else you would like to share about yourself?**

Luke says his friends say he never had a childhood because he has never seen Star Wars or Harry Potter movies. All we can say to Luke is that he missed out on some iconic scientific fiction, light-saber, and wand-waving action!
